Do people really love trashy literature, or do they read it chiefly because it is cheap and easily accessible? Much light is thrown on this inquiry by the experience of The Forum, which is the very furthest remove from sensationalism. This leading monthly reduced its price from \$5 to \$3 a year, and discovered almost instantly that the number of readers of serious literature in the United States was as great—or well-nigh as great—as the number of readers of the "popular" magazines. The publishers report a continuous increase, and an increase at a faster rate since the January number appeared than before. The edition for February will, it is believed, be larger than any edition of any review ever hitherto published anywhere.

The Examiner prints a picture of Lillian Russell who was recently married, and says the portrait was taken at the time Ada Rehan was chosen as the model of the silver statue of Justice. It was unkind of that journal to call up Lilly's defeat so pointedly.

## McNulty's Execution.

San Francisco, Jan. 23.—John McNulty, the condemned murderer of Patrick Collins, has but a short time on earth. Yesterday the work of erecting a gallows was begun in County Jail, and today the black timbers are in place. In the room with him is the deathwatch, who alone will be his companion, with the exception of Father Jaquet, until Friday next between the hours 11 a.m. and 12 m. Although pale and nervous McNulty sleeps well and eats heartily. Before him on his little stand is a crucifix and Bible. Oft times to break the monotony of his remaining hours, he will engage in a short conversation with his guard, only to be broken off to his religious exercises.

This morning W. H. L. Barnes and Mayor Elliott went to make a request to Gov. Markham for the reprieve of McNulty's sentence. It is claimed that new witnesses have been found that change the case materially in McNulty's favor.

## Blount Compared With Arnold.

Washington, January 23.—In the course of the Hawaiian debate in the Senate this afternoon Culom made a bitter and sarcastic attack on the Administration, arraigning its policy as blundering, unpatriotic and bringing shame to the nation, and declaring that the Provisional Government would have been justified in treating Blount as Benedict Arnold was treated.

## Postponed to Saturday.

Jacksonville, Jan. 23.—The Duval Club has made a proposition to Corbett and Mitchell to fight on Saturday instead of Thursday. Corbett has accepted, but it is not thought that Mitchell will.

## MIDWINTER FAIR MATTERS.

Letters From the Department of Publicity and Promotion.

SAN FRANCISCO, Jan. 21, 1894. Only one week more and the California Midwinter International Exposition will be in full running order.

A number of the larger concessions have been in operation for a week or more now, and notwithstanding the fact that the Exposition has not yet been officially opened, they are really doing a good business. There has been an average of 2,000 paid admissions every day since the gates were opened and since 25 cents admission began to be charged. This rate of admission will be in force until the 27th, when the grand ceremonial dedication will take place. Thereafter the admission will be 50 cents. Arrangements for Dedication Day are progressing satisfactorily. The grand stand, which is to seat 7,000 invited guests, will surely be finished in time. A large band stand is being erected in the Grand Central Court, and the famous Iowa State band, which is to be one of the attractions on opening day, is already on the ground.

There has been during the past week three important concessional openings. One of these was that of the Fifth wheel, which carried on Saturday last more than 2,000 people around its airy circuit, and established itself at a single whirl as a prime favorite.

Another important event of the week has been the opening of the Cyclorama of Kiluea, the burning volcano. This grand realistic picture has been greatly improved upon since it was seen on the Midway Plaisance, and it is shown here in San Francisco with every additional accessory which experience has suggested.

The latest Congress that has been arranged for the connection with the Exposition is the Grange Congress. April 14th and 15th have been chosen as the days on which this Congress shall meet. It will be under the auspices of the State Grange of California. Invitations have been sent out to every State and district grange in the United States, and it is expected that there will be in San Francisco on the occasion referred to, the greatest gathering of agriculturists that has ever been west of the Mississippi.

## A Murderess.

Kokomo, Ind., January 23.—Mrs. Augusta Schmidt, in jail here awaiting trial for the murder of John Oscar Walton last October, is the daughter of a baron of Saxony. In 1869 she gave up her fortune and an engagement to come to this city and become the adopted daughter of her aunt, Mrs. Christiana Hooper, herself the daughter of a German Baron.

Mrs. Hooper, though immensely wealthy, was a miser, and in a few years crushed all the life and ambition out of the young girl, who became also sordid and miserly. In 1882 she married Charles Schmidt, a prosperous farmer. When the aunt died it was found she had not, as she had promised, legally adopted her niece, and a scramble for her wealth followed, but Mrs. Schmidt succeeded in getting about \$100,000.

Other heirs kept up a series of lawsuits that ruined Mrs. Schmidt. In a quarrel about the matter with Walton, who was one of her tenants, Mrs. Schmidt shot him to death. She has nothing left and her husband and three children are now begging on the streets for food. Mrs. Schmidt's mother in Germany has been appealed to for aid, but as the daughter left her home against her mother's wishes it is expected she will not feel like helping much.

About 11:30 o'clock Saturday night 500 tons of earth slid from a hill at North Sausalito near the North Pacific Coast Railroad shops, causing damage to the amount of several thousand dollars. Fences, sheds and barns were wrecked as if they were cigar boxes. After falling a distance of eighty feet it slid over two hundred feet, carrying with it everything it struck, and the ground adjoining the moving mass was covered with slush six inches deep.
